

Scope Education Programs

Corporate & Community

Does your organisation have scope for inclusion?

Take a roomful of willing participants. Add a unique mix of storytelling, discussion, and interactive activities; and what do you get? A vibrant and engaging learning environment!

Scope's Education service is a leading provider of disability awareness training in Victoria. Our team of experienced educators has worked for over 15 years to develop and deliver high quality training to corporate and community organisations.

Our aim is to break down the barriers to inclusion for people with disabilities. In doing so, provide positive and meaningful outcomes for your organisation.

Scope training presents an opportunity like no other. Our interactive workshops are all co-presented by people living with a disability. Your staff, volunteers and members will hear their real-life stories. They will also participate in a range of fun, yet challenging activities to gain a first-hand experience of disability.

Content can be tailored to meet the business needs of any organisation, providing a truly customised educational outcome.

Participants develop the confidence and skills to interact positively with all people.

Scope's Education Programs provide the perfect platform for your organisation to lead the way in creating a more inclusive, accepting and welcoming community for all people.

The Scope Education Team is committed to delivering high quality, professional training. Core learning outcomes include:

- Challenging myths and stereotypes often linked to people with a disability.
- Interacting with people who have a range of disabilities.
- Using appropriate language and behaviour to create welcoming environments.
- Understanding how to make "Reasonable Adjustments" to meet legal obligations.
- Exploring the benefits of being an equal opportunity employer.

"Outstanding in delivering a professional and informative training program. It was interesting to hear the personal stories and suggested ideas"

Participant - V/Line

"This has given me so much more confidence in communicating with people with a disability. The tips were invaluable."

Participant - Department of Justice
