

Scope Strategic Plan 2024 to 2028

Easy English

About this booklet

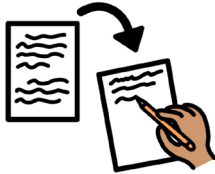

This booklet is from Scope.

Scope helps people with disability.

Some words in this booklet are **blue**.

We write what the blue words mean.

You can get someone to help you

- read and understand this booklet

- find more information.

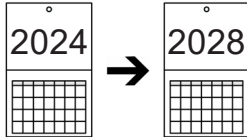

Contact information is at the end of this booklet.

Our strategic plan

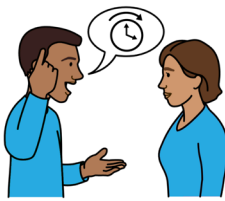

This booklet is about our **strategic plan**.

Our strategic plan has our goals from 2024 to 2028.

We will call it **our plan**.

Our plan will help us get ready for future

- changes

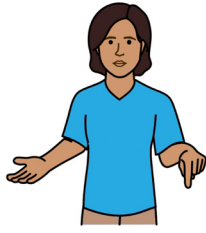

- **opportunities.**

Opportunities means new things we can do.

Our plan will also help us do good work for people with disability in the future.

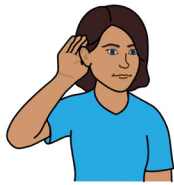

Our plan is a guide to help us choose

- what to do

- how to do it.

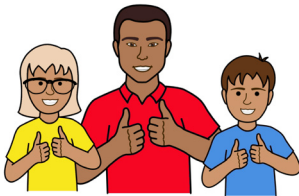

We listened to ideas from the people we support and our staff before we made our plan.

Our purpose

Our purpose means what we do.

Our purpose is to help people with disability belong and do well.

Our vision

Our vision means what we want for the future.

Our vision is for the people we support and our staff to

- reach their goals
- live the life they want.

Our values

Our values are things that matter to us.

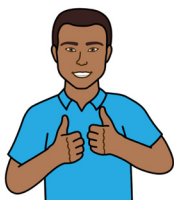

For example

- we care about people

- we do a good job together

- we do things the right way.

Our goals

We have 4 goals.

Goal 1 – build a strong organisation

We will

- value the people we support and our staff

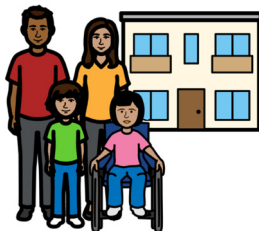

- give services that are safe and good

- manage money the right way.

Goal 2 – have better home and living support options

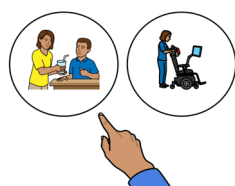

We will make our houses and services better so the people we support are happy where they live.

Goal 3 – focus on community supports

We will help the people we support to

- live, work, learn and be part of their community

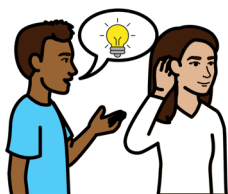

- use different services that meet their needs.

Goal 4 – be a leader in disability

We will **advocate** for people with disability.

Advocate means we share ideas about how to make things better for people with disability.

For example, we will

- share good stories about people with disability in the community

- share our **research** with people in government.

Research means we learn more about something.

How we will reach our goals

We will focus on quality, safety and doing things better.

We will

- work with the people we support to give good services

- check that the people we support reach their goals

- try and test new ideas

- manage change well

- work with good organisations to help us reach our goals.
