

Better Communication

Are you working with someone who has communication difficulties and displays behaviours of concern?

Individuals who have difficulty communicating with others may use behaviours that are a concern to themselves and those around them. In this workshop you will learn the importance of recognising and understanding an individual's communication skills when completing a Functional Behaviour Assessment, and developing a Positive Behaviour Support Plan.

At this workshop you will

- Learn about the relationship between communication and behaviours of concern.
- Learn about the Positive Behaviour Framework used by the Office of Professional Practice for people who engage in behaviours of concern.
- Learn different communication strategies to change the environment, teach skills and introduce short term change.
- Learn about a Functional Behaviour Assessment.
- Learn about different levels of communication.
- Learn tips to write and interpret Behaviour Support Plans for the people you work with.

This workshop will provide

- Information about positive behaviour support and quality of life.
- Information and examples of communication aids for positive behaviour support.
- Opportunity to discuss challenges faced when supporting people with behaviours of concern.
- Experience in analysing behaviours of concern through case studies.

Audience Direct

support staff, therapists, teachers, parents and interested others.

Catering

Tea and coffee will be provided. Please bring your own lunch or purchase at one of the many cafés and eateries in the area.
